

POLICY IMPLEMENTATION

The superintendent has responsibility for carrying out, through administrative regulations, the policies established by the Board.

The policies developed by the Board and the administrative regulations developed to implement policy are designed to promote an effective and efficient school system. All District employees and students will be expected to carry them out.

There are activities that are common to all school levels, but procedures for conducting them may vary. Principals will establish procedures for conducting activities within their individual units within the larger framework of administrative regulations and Board policies.
