

FOOD SERVICES MANAGEMENT

The Board considers the practice of serving food at school a means of encouraging good health habits.

The school system will operate a school lunch program in the Faith school which will be under the supervision of the Food Service Manager.

The cafeteria staff in the Faith school will be directly responsible to the district Food Service Manager, but will cooperate with the principal of the school in matters essential to the proper functioning of the food services program. The responsibility for control of students using the cafeteria will rest with the building principal who may assign appropriate staff to provide supervisory control.

The Board will approve the prices set for the school lunches and the price of milk annually.

As required for participation in the National School Lunch Program, the Board agrees to the following regulations:

1. That a school lunch be made available for students.
2. That free and reduced price lunches be provided to students who cannot afford to pay the price of the school lunch.

Students will also be permitted to bring their lunches from home and to purchase beverages and incidental items.
