

## JFCHH

### ALCOHOL SENSOR DEVICE

Students are prohibited from using, possessing or being under the influence of alcohol on school property or at school related functions. Therefore, the Faith School reserves the right to use an alcohol sensor device to detect the use and possession of alcohol in schools and at school activities.

- (A) **Suspicionless Testing** All students and their guests attending school dances/proms/semi formals can be required to take a breathalyzer test before entering/leaving the event. If the results of such a test prove positive or a student or guest declines to participate, for the safety of students and others, the individual will be denied entry/departure to or from the event and, in accordance with procedures adopted by the Superintendent, will be released into the custody of his or her parent/guardian- if they are not available, to proper authorities until parents/guardian can be reached. If the results of the test prove positive or the student declines to participate the student shall be subject to disciplinary action in accordance with the school's code of conduct.
- (B) **Reasonable Suspicion Testing** The alcohol sensor devices may also be used during the School day or at other functions deemed appropriate by the building principals as follows: A student about whom there is a reasonable suspicion of consumption of alcohol shall be referred to the appropriate administrator who shall determine if there is a reasonable suspicion that the student is under the influence of alcohol. If such reasonable suspicion exists, the student shall be given the option to submit to the use of an breathalyzer test. Indicia of reasonable suspicion may include, but will not be limited to, alcohol odor, slurred speech, unsteady gait, lack of coordination, presence in the vicinity of an alcohol container, bloodshot or glazed eyes, or such other information that raises a reasonable suspicion as to alcohol consumption. If the results of the test prove positive or the student declines to participate the student shall be subject to disciplinary action in accordance with the school's code of conduct.

With respect to both Suspicionless Testing and Reasonable Suspicion Testing, The Superintendent shall develop procedures to reasonably ensure reliability of the screening instrument, appropriate training for school administrators with respect to the use of the device, and student privacy during the taking of a sample.
