HOOKED ON EDUCATIONAL SUCCESS

October 11, 2018

Dear Patrons:

On October 10, 2018, the Board of Education formed a committee to discuss and explore options for our school football program. Starting next school year, Faith School District would have the **option** to join a 6-man football classification. The committee is Kelly Daughters, Doug Schauer, Matt Schackow, Justin Haines and Lynn Halligan.

The committee would like to hold two meetings with the public to discuss our options and get feedback regarding the future of football in Faith School District. We will hold the first meeting on Monday October 22, from 6:00-7:30 in the school lunch room. The second and final meeting will be held on November 19 from 6:00-7:30.

The purpose of these meetings will be to look at both options 6-man/9-man and discuss. We want to come away from these meetings with a clear idea of what the community would like the school board to do regarding football moving forward.

The Faith School District Board of Education will have to make a final decision at the December board meeting. The SDHSAA needs to know by the first week of January what our schools decision is regarding the football program. The Faith School District is committed to providing excellent educational programs and services for our students now and into the future.

Sincerely,

A handwritten signature in black ink, appearing to read "Kelly Daughters".

Kelly Daughters
Superintendent Faith Public School
